

ACE Liberia

AFRICA COMMUNITY EXCHANGE

Teacher Development & Continuing Education Symposium July 12-20, 2018 in Monrovia, Liberia

Africa Community Exchange, Inc. (ACE) is pleased to host the 2018 Teacher Development & Continuing Education Symposium from July 12-20 in Monrovia, Liberia at St. Teresa's Convent Conference Center. This year's symposium aims to provide training for Kakata Rural Teacher Training Institute instructors, school principals, and 80 community-based, primary school teachers who are seeking pathways to teaching certification.

The training will focus on Basic Skills Proficiency: Language Arts, Special Education, Mathematics, and Science (grades K-6) – using the Ministry of Education curriculum guidelines to deliver subject matter training on content, lesson plan development, and resource materials. Personal development on self-management and social skills (including content on behavioral change, ethics, civic engagement, and personal growth) will be an aspect of the symposium as well. The training will highlight how to engage students with hands-on exercises, small group activities, and class discussions to help reduce rote learning.

We look forward to your participation and contributions to this event. The teacher development and continuing education symposium will direct much needed support and resources to enhance the skills of existing primary school teachers working in low-income, community-based schools. This program recognizes the plight of the existing, non-government teachers and wants to contribute to the development of this population.

Information regarding the event will be regularly updated, so please consult the website often: <http://www.aceliberia.org/about-us/event/>. We look forward to welcoming you in Monrovia.

Sincerely yours,

Sophie Williams, Ed.D
Chair of the Board
